ATLANTA, GA. FunnyBone Comics Inc., from Orange, California signed up to bring their popular Oinky Piggy to the iPhones, iPod Touches and iPads worldwide.

FunnyBone Comics' flagship Oinky is a curious, energetic and imaginative seven year old. He's willing to take on any challenge no matter how hard it may seem, only to discover he's still a kid and needs help sometimes. He uses his imagination at times to turn a boring day into adventure and excitement. Oinky often wears his favorite blue baseball cap and blue shirt, with brown shorts and white-toed blue sneakers. Even in the gloomiest of moment, Oinky can see the bright side and laugh about it. Oinky's family consists of Mom, Dad and old sister, Sally. Even though Oinky is the youngest in the family his opinions matter equally when making family decisions.

OinkyPiggy will be available in English, French, Spanish, Japanese and Mandarin.

We warmly welcome OinkyPiggy to ETHERMEDIA. Stay tuned for Oinky to arrive on an iPhone, iPod or iPad near you soon!
